WE PROVIDE THE MOST FLEXIBLE & CUSTOMIZED WORKFLOW ENGINE.

Omniscient

OmniBPM

OmniBPM is Just the Solution You are Seeking !

What can we do

Access Your Pending Workflows and Forms Anytime, Anywhere

- We're web-based, access to your workflows from your PC as well as your smartphone.
- ► Flow and Form can be designed by you, no coding needed.
- Does not need to consider maintenance of database.
- Be notified on your phone when it's your turn to sign, and email to remind you daily.
- Exporting your workflows as your design, making customization very easy.
- Provide exclusive OmniBPM iOS / Android app.

OmniBPM Flexibility & Efficiency

No Programing Skillset Required

- Design any kind of flow that suits your needs, from sales, purchasing orders to leave request.
- Counter sign, parallel sign, calculation formula, external

database linkage, we're about maximum optimization.

- Less paper, more efficiency. Everything done online and on your mobile.
- Monitor through Dasgboard, Kanban, to find the bottleneck of your process.

CASE STUDY -REPAIR REAUEST FORM

* Customized signing flow

- * Instant update to all related departments
- * Flow of forms can be adjusted to different type of request
- * Make sure all repair part are finished
- Documents show the current state
- ✤ Each form sets a specific priority

HUMAN RESOURCE MANAGENMENT SYSTEM

Traditional clock-in is too slow Now companies need to have flexibility to closely record employee working hours

To coincide with the current in labor regulation,
 we have developed a module that helps the HR
 department on tracking and managing the working
 hours/clock-on out and leaves of the employees.

- We made it available to export in a format that is compatible with government regulation inspections, saving you the trouble.
- Moreover, it's now free of use and does not cost
 addition once you purchase OmniBPM system!
